Chad Koslovsky

Systems Engineering | Infrastructure & Operations

Loveland, Colorado · chad@koslovsky.xyz

TARGET

Sr. Systems Administrator | nLIGHT

PROFILE

Systems engineer in Loveland with datacenter and hands-on IT ownership. At FRII, led engineering through a company purchase, then served as sole systems engineer for about a year with on-call NOC escalation responsibility. Ran SOC 1 and SOC 2 audits and migrated infrastructure to Kubernetes. At Excell, rebuilt servers and networks and connected a satellite location with VPN, Windows Server and Active Directory.

CAPABILITIES

Windows Server, Active Directory, Linux and Microsoft 365 administration · Networking, DNS, VPN, endpoint support, virtualization and recovery · DevOps, Docker, Kubernetes, CI/CD and repeatable infrastructure · PowerShell, Python, Ansible and Terraform automation · Incident response, NOC escalation, SOC 1 / SOC 2 audits and operational documentation

RELEVANT EXPERIENCE

Founder / Product Engineer / Systems Lead · Technomancy IT LLC | 2015-Present

- Own client infrastructure, access controls, production support and automation, with clients calling directly for on-call IT help. Build and operate tenant-aware services with explicit monitoring and support boundaries.

Senior Systems Engineer / Datacenter Architect · Front Range Internet Inc. | 2015-2019

- Led engineering through a company purchase; then served as the sole systems engineer for about a year, on call for unresolved NOC escalations. Owned and ran SOC 1 and SOC 2 audits. Migrated FRII systems to Kubernetes and codified deployment and operations with Terraform, Ansible and CI/CD, alongside monitoring and recovery verification.

Systems / Software Engineer · Office Evolution | 2013-2014

- Built SQL- and MongoDB-backed tools connecting CRM, network provisioning, onboarding and service operations across locations.

Network Engineer · PlumChoice / Everon | 2011-2013

- Provided on-call support for business networks and endpoints, built diagnostic tooling, and communicated directly with business owners and end users.

Infrastructure and Systems Focal · IBM | 2009-2011

- Supported shared enterprise infrastructure, automated audit and backup workflows, managed virtualization labs and hosted desktops, and coordinated changes, incidents and escalations.

PRODUCT & ENGINEERING WORK

Server and network modernization · Excell

- Provided full IT support, replaced servers, hardware and networking, and rebuilt computers. Helped launch a satellite location with VPN, Windows Server and Active Directory.

Community IT support · Wray, Colorado

- Provided direct, on-call IT support for businesses and residents through a local shop, rebuilt computers, provided house-to-house help and assisted school systems in the surrounding area.
